[†] For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

Biology

Gain an understanding of biological systems and organisms, as well as key laboratory processes.

Chemistry

Gain an understanding of chemical reactions, fundamental particles and the periodic table.

Collaborative Project

Practise your investigative, analytical and collaborative skills on a project carried out with other students.

Co-operation and Conflict

Explore the basic problems of conflict and cooperation in international relations, and how to analyse topics in current world affairs.

Constitutional Law

Gain an understanding of the UK constitution and the foundations of judicial review, as well as an overview of the key powers and functions of the three branches of government.

Contemporary Global Issues

Explore the big issues facing humanity in the 21st century, and critically evaluate their causes and effects.

Contract Law

Build an understanding of the knowledge and skills required to identify and draft a legally enforceable contract, and learn to identify key issues in real life scenarios using the law to solve problems.

Criminal Law

Learn about the concepts and principles of criminal law, and develop your understanding of the legal elements of criminal liability and the major criminal offences and defences in England and Wales.

Critical Reading, Writing and Reasoning for Higher Education

Enhance your ability to read and to understand complex ideas in English, and to compose convincing written arguments.

Digital Applications

Develop your digital skill set, helping you use digital tools to support academic study, including using and citing digital sources.

Economic Policy

Explore topical economic issues in the UK and around the world, and how economics affects policy development.

Economics

Gain an understanding of macro- and micro-economics, and explore current trends and issues in the field.

English for Academic Purposes

Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 1

Gain a better understanding of how English is used in academia.

English for Academic Study 2

Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3

Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Entrepreneurship

Familiarise yourself with varied concepts of creativity, entrepreneurship and innovation, and how to apply them in business.

Extended Project

Learn how to plan, carry out and report an extended project. You can choose a project topic that matches your degree and career goals, and personal interests.

Financial Accounting

Learn about standard accounting conventions, and the role of financial accounting within organisations.

Foundations of Property Law

Explore the fundamental principles of the law of property, and the framework within which property lawyers operate in England and Wales.

Foundations of the Law of Obligations

Develop a knowledge of this field of civil law, and apply this knowledge to analyse simulated and real-life cases.

Historical Perspectives

Gain an understanding of the historical context of your chosen degree area, and skills such as researching, evaluating and interpreting sources.

Independent and Collaborative Study

Work independently and in teams on an academic task, and practise applying your subject knowledge and study skills.

Information Technology

Discover the key concepts of computer science, including data representation and programming languages.

Intermediate Mathematics

Expand your knowledge of mathematical concepts including algebra, geometry, problem-solving, trigonometry and vectors.

Introduction to International Relations

Focusing on international security and international political economy, you'll learn about state and non-state actors, the causes of war, terrorism, human rights, international institutions, trade, disaster response and foreign aid.

Introduction to Politics

Gain an understanding of political research, theory and philosophy, and explore the origins and organisation of the state, political power, political decisions, ideologies, values, political parties and democracy.

Legal Skills and the English Legal System

Gain an overview of the English legal system, including different forms of dispute resolution, and develop research and communication skills to facilitate your studies.

Logic and Critical Thinking

Explore the concepts, history and skills relating to logic and critical thinking, and how they apply in real-world contexts.

Management Accounting

Find out about the role of financial management in organisations, as well as techniques for financial decision-making.

Management and Organisation

Explore the key theories of business management, and learn to evaluate management practices in context.

Mathematics

Develop your mathematical skill set in areas such as algebra, decision maths, probabilities and statistics.

Mathematics for Economics

Learn the key mathematical knowledge and skills needed to communicate and evaluate economic concepts.

People, Culture and Society

Learn about the history, theories and issues that relate to human culture and society around the world.

Physics

Gain an understanding of astrophysics, electromagnetism, mechanics and thermodynamics.

Preparatory Mathematics

Develop your numeracy skills, including algebra, geometry and graphs.

Preparatory Science

Gain an introduction to core scientific knowledge, and subject-specific language required to study the sciences.

Preparatory Statistics

Build on your knowledge of using statistics, including the use of data to illustrate facts and support theories.

Principles of Marketing

Gain an insight into the key principles of modern marketing, and its role in business and commercial competition.
