Course delivery

All Pre-Master's and Pre-Doctorate courses are taught in person at Kaplan International College London as much as possible. In exceptional cases however, some classes may be taught at an alternative venue nearby.

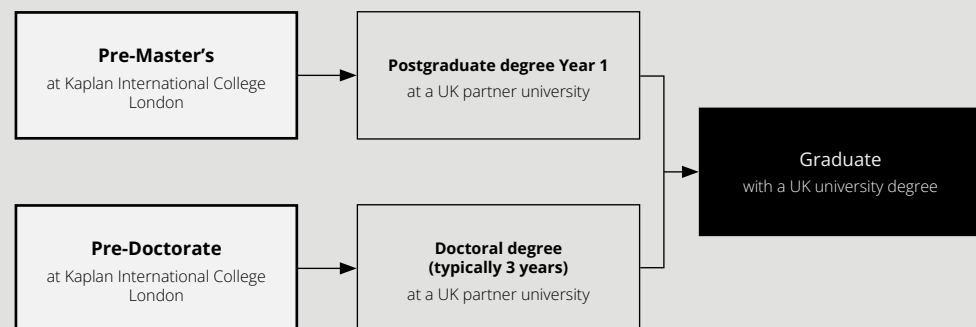

Costs of studying abroad: For details about the cost of studying in London, in addition to pathway course tuition fees, see: kaplanpathways.com/london-study-costs

Accepted English tests: we accept UKVI IELTS and several alternatives. For full details, see: kaplanpathways.com/uk/ielts/

Guaranteed interview

On the Pre-Doctorate, when you successfully complete your course, you are guaranteed an interview at one of our partner universities where your research areas match.

Your path to university:

Internships: all pathway course subjects have the option of an integrated virtual internship as an extra final term in the UK.

Accounting and Finance

Evaluate various financial and accounting concepts, models and techniques, and apply them to a firm's strategic decision making.

Advanced Mathematics

You'll develop a wide range of mathematical and analytical skills essential for postgraduate study in mathematics, business and related disciplines.

Advanced Social Science

Learn about the key theories in social sciences, and their relation to methodologies in the field.

Advanced Statistics

Develop a comprehensive mathematical skillset, including the analytical skills required for postgraduate study.

Engineering, Science and Society

Gain an awareness of ethical issues and debates surrounding research and innovation in the sciences.

English for Academic Purposes

Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2

Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3

Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Independent and Collaborative Study

Work independently and in teams on an academic task, and practise applying your subject knowledge and study skills.

Philosophy, History and Culture

Explore Western philosophy and its history, and analyse events and developments in your degree in a historical and cultural context.

Project Management

Gain key skills in project management, and apply your knowledge to a project based on emerging technologies.

Reading and Writing 2

Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3

Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Research Project

Plan, execute and report a comprehensive research project; you'll choose a research topic based on your degree and career goals, and personal interests.

Speaking and Listening 2

Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3

Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Strategic Management

Explore key concepts of strategic management, and evaluate their impact on businesses and their operations.

Study Skills Preparation

Gain an introduction to the wide range of skills and strategies you'll need to succeed at university, such as research methods and using and citing sources.

UK Society and Culture (Advanced)

Learn more about a range of aspects of British culture, as well as British cultural and social institutions.

Online internship

While you're at the College in the UK, you'll take an online work placement as your final term if you choose a pathway course with integrated internship.

The internship is offered in partnership with Virtual Internships, a leading education company in the field. This gives you the chance to gain valuable work experience with one of 3,500+ companies around the world.

You will choose one of 18 career fields on your internship, based on your chosen progression degree. This will all help you develop important skills, practise your English and give you some great experience to add to your CV.

kaplanpathways.com/internship

Personal development activities (all courses)**Culture and activities**

We'll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Digital and employability skills

Outside of your academic learning, you'll also be taught skills that will be useful at university and later in life. You'll receive help in making the most of your creativity, improving your communication and developing your digital skills. We'll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social networking

Forming a strong social network can be very beneficial, even if it's just to discuss and debate ideas. Not only will you get to know your classmates, you'll also have opportunities to join professional bodies, and network with students and industry professionals: something that can be really helpful when you go on to start a career.

Pre-Doctorate

A Pre-Doctorate will help you prepare for a doctoral degree in the UK. If you successfully complete your course, you'll be guaranteed an interview at one of our partner universities, provided your research area matches their research priorities.
